

This exploded view diagram illustrates the assembly of a mechanical component, likely a handle or lever. The main body is a T-shaped part with a large circular opening on one end and a smaller threaded hole on the other. The assembly sequence is indicated by numbered callouts: 7 (a small ring or washer), 8 (a small ring or washer), 182 (a small ring or washer), 183 (a small ring or washer), 456 (a large circular flange or cap), and 10 (a small screw or pin). On the opposite side of the main body, the assembly includes 561 (a small ring or washer), 560 (a small ring or washer), 559 (a small ring or washer), 650 (a small rectangular plate or bracket), and 651 (a small screw or pin). Dashed lines indicate the alignment and assembly path for each component.
